COUNT ON US

THE FRENCH REVOLUTION

In 1788, France was on the brink of bankruptcy because of the decadence of its privileged classes. In order to further tax the nation, a parliament was elected to deflect the blame from the monarchy.

The assembly, swaggering with sudden power, devised a constitutional monarchy, but one with a fatal flaw: a kingly veto which infuriated the nation, led to the execution of the royal family, and let loose a reign of terror which did not end until an entire nation's blood-lust was sated.

WONDER WHY?

It's fun, exciting and challenging! A new series for primary/junior science covering the following topics:

Animals, Oceans, Electricity, Sound, Deserts, Senses, Forests, Time, Flight, Space, Insects, Metals, Hot & Cold, Weather, Light, Colour and The Past

W5

A new season of answers to the questions asked by Canadians:

Who, What, Where,
When, Why

LAST FRONTIER IV

Twenty-eight exciting new adventures with John Stoneman.

QUESTION PERIOD

A discussion of topics affecting Canada and Canadians.

FIRING SQUAD

The gripping story of a World War II Canadian Captain who has a crisis of conscience when he is ordered to execute another soldier by firing squad. Based on the award winning novel "The Execution".

CHALLENGE JOURNAL II

This series takes a look at issues surrounding the disabled: illiteracy, puberty, reproduction, technology, leisure activities, self-defense, fund raising, environmental issues and deaf language.

SHIRLEY

An all new season of programs passionately discussing the issues affecting Canadians today.

It all began in the library.

From the centuries-old compilation of knowledge to the collection of books, the information age began in the library. As did Utlas. □ Today, from the complete range of bibliographic services through CATSS to our complementary OCLC products, Utlas is the most comprehensive technological support available to Canada's librarians. □ We understand your needs because we share your roots.
